About me

I am a full-time UI/UX Designer. I have also completed my bachelor's degree in Social Work. I am always open to gaining new experiences and staying in sync with the latest design trends and technologies.

Experience

Designing user-friendly interfaces and creating seamless user experiences for web and mobile applications. I also collaborated with clients to understand their needs and provided design solutions that align with their goals, ensuring smooth communication and project satisfaction.

UI/UX Design Management

Designing user-centered interfaces using Figma, Adobe XD, Photoshop, and Illustrator. Proficient in creating responsive designs, wireframes, prototypes, and design systems. Skilled in usability testing, user research, and interaction design principles.

Visual Communication & Branding

Developing visual identities, icons, and cohesive branding materials. Experienced in creating high-fidelity mockups, interactive prototypes, and collaborating with development teams to ensure design consistency across web and mobile platforms.
